

NORDIC CROWN II™

WITH THE NORDIC SPORT™, IMPULSE DP™ & IMPULSE™

The Robb Report, an internationally renowned magazine which rates the best of the best products from all industries, chose Nordic Hot Tubs™ as one of the **5 best spas in the world**.

Nordic Hot Tub cabinets are handcrafted from the heart of Western Red Cedar, beautiful, high-quality cedar. The Crown II™ is available with an upgrade in our new PermaWood™ cabinet, a plastic wood that won't rot, splinter or warp. Even after years of use, your hot tub will look as good as the day you brought it home.

Nordic uses the same components found on spas costing 3 times as much. This assures you not only of value, but that you will enjoy your hot tub for years to come. Nordic uses Spa Builders controls that allow you to control your hot tub with just a touch of a button. These controls automatically operate the filtration cycles, temperature, and protects your tub from freezing or overheating.

The classic shape, the unobstructed seating, the spacious footwell, you and the water become one. *Life is perfect* in a Nordic Hot Tub.™

Nordic Crown II™. Room for 5 adults, cozy enough for 2
